Morning Murli Om Shanti

BapDada

Madhuban

Essence: Sweet children, your intellects become clean with the power of remembrance and you also imbibe divine virtues. Therefore, sit in solitude and ask yourselves how many divine virtues you have developed.

Question: What is a very great, devilish defect which you children must not have?

Answer: It is a very great, devilish defect to speak in a *rough* or harsh manner to someone. This is also called an evil spirit. When this evil spirit enters someone, it causes a lot of damage and you therefore have to step away from that. As much as possible, practise: I now have to return home and go into the new kingdom. While seeing everything in this world, do not see anything.

Om shanti. The Father sits here and explains to you children that you have to shed your bodies and then return home. You also have to forget this world. This too is a practice. When there are complications of the body, you have to try and forget your body and also forget the world. The practice of forgetting should be done in the morning. "I now have to return home, that is all." You children have received the knowledge that you have to renounce the whole world and return home. There is no need for a lot of knowledge. You have to try and maintain that concern. No matter how much difficulty you may have with your bodies, it has been explained to you children how to practise this. It is as though you don't exist. This too is a good practice. There is now little time left. We now have to return home. You have the Father's help and this one's help. You definitely do receive help, but you also have to make your own efforts. Whatever you can see, that does not exist. You now have to return home. You then have to go into your own kingdom. At the end, there are just these two things that remain: You have to go and come. It has been seen that, by your staying in remembrance, any illnesses of the body that used to trouble you will *automatically* reduce and just happiness will remain. There is no nourishment like happiness. Therefore, it has to be explained to you children: Children, you now have to return home. You have to go to your *sweet home*. You have to forget this old world. This is called the pilgrimage of remembrance. It is only now that you children know about this. The Father comes every cycle. He says the same thing, that He will meet you again after another cycle. The Father says: Children, whatever you are listening to now, you will listen to the same things after a cycle. You children know that the Father says: I come every cycle and show you children the path. It is the duty of you children to follow that path. The Father comes and shows you the path and also takes you back with Him. He doesn't just show you the path, but He also takes you back with Him. It has also been explained to you that these pictures, etc. will be of no use at the end. The Father has given you His own introduction. You children understand that the Father's inheritance is the unlimited sovereignty. Those who used to go to the temples yesterday and sing the praise of these children (Lakshmi and Narayan) - Baba would call them "Children, children" anyway - they used to sing praise of them becoming so elevated and they are now making effort once again to become elevated. This is not anything new for Shiv Baba. It is something new for you children. It is you children who are on a battlefield. It is you who are troubled by negative and wasteful thoughts. This cough is also this one's karmic account which he has to suffer. Baba is in a state of pleasure. This one has to become karmateet. The Father is always in the karmateet stage. It is I and you children who experience storms of Maya, etc. and the suffering of karma. This has to be explained. The Father shows you the path. He explains everything to you children. When something happens to this chariot, you have the *feeling* that something has happened to Dada. Nothing happens to Baba; it happens to this one. There is no blind faith on the path of this knowledge. The Father explains which body He enters. I enter this impure body at the end of the last of his many births. Dada also understands that he too is a child like the other children. Dada is also an effort-maker; he is not perfect. All of you Brahmin children of Prajapita Brahma are making effort to attain the Vishnu status. Whether you say Lakshmi and Narayan or Vishnu, it is the same thing. The Father

has explained to you, whereas, previously, you didn't understand anything. You neither understood about Brahma, Vishnu and Shankar nor your own selves. Now, when you see the Father and Brahma, Vishnu and Shankar, it enters your intellects that this Brahma is doing tapasya. He is in the same white *dress*. It is here that you have the karmateet stage. You have visions *in advance*: this Baba will become an angel. You also know that you will attain your karmateet stage and become angels, numberwise. You understand that when you become angels, the war will begin. It is said: "Death to the prey and happiness for the hunter". This is a very high stage. You children have to imbibe this knowledge. You have the faith that you go around the cycle. No one else can understand these things. This is new knowledge and the Father teaches you remembrance in order for you to become pure. You also understand that you receive the inheritance from the Father. You become the Father's children every cycle. You have been around the cycle of 84 births. Explain to anyone that they are souls, that the Supreme Father, the Supreme Soul, is the Father and that they must now remember that Father. It will then enter those people's intellects that now they have to become divine *princes* and that they also have to make that much effort. You have to renounce all the vices, etc. The Father explains: Do not even consider yourselves to be brothers and sisters, but consider yourselves to be brothers and remember the Father and your sins will be absolved. There is no other difficulty. At the end, there will be no need for anything else. You simply have to remember the Father. You have to become theists. You have to become full of all virtues like them. The picture of Lakshmi and Narayan is very *accurate*. By simply forgetting the Father, you even forget to imbibe divine virtues. Children, sit in solitude and think about this: "I have to remember Baba and become like them. I have to imbibe those virtues." It is a very small thing. You children have to make so much effort. Some children become so body conscious! The Father says: May you be soul conscious! You have to claim your inheritance from the Father. If you remember the Father, the rubbish will be removed. You children know that Baba has now come. He establishes the new world through Brahma. You children know that that establishment is taking place. Such a simple matter slips away from you. There is just the one Alpha and you receive the sovereignty from that unlimited Father. By remembering the Father, you remember the new world. Innocent, hunchbacked mothers can also claim a very good status. You simply have to consider yourselves to be souls and remember the Father. The Father has shown you the way. He says: Have the faith that you are souls. You have received the Father's introduction. It has now sat in your intellects that you have completed 84 births and that you will now go home and then go and play your *parts* in heaven. The question doesn't arise: Where should I remember Baba? How can I remember Him? It is in your intellects that you have to remember the Father. No matter where the Father goes, you are still His children. You have to remember the unlimited Father. When you sit here, you experience bliss because you meet the Father personally, face to face. People become confused about how there can be the birth of Shiv Baba. They don't understand why it is called the night of Shiva. For Shri Krishna, they understand that his birth took place at night, but it is not a question of this (limited) night. The night of half a cycle comes to an end and so the Father then has to come to establish the new world. It is very easy. You children can understand for yourselves that this is very easy. You have to imbibe divine virtues. Otherwise, one hundred-fold sin will be accumulated. Those who cause me to be defamed Me cannot claim a high status. If you have the Father defamed, your status will be destroyed. You have to become very sweet. To speak *roughly* is not a divine virtue. You should understand that that is a devilish trait. You have to explain with love: that is not a divine virtue. You children know that the iron age is coming to an end. This is the confluence age. People don't know anything. They are sleeping in the sleep of Kumbhakarna. They believe that they still have 40,000 years and that they will continue to live and experience happiness. They don't understand that, day by day, they are becoming more and more tamopradhan. You children have had visions of destruction. As you progress further, you will also have visions of Brahma and Shri Krishna: By going to Brahma, you will become a *prince* of heaven like that one. This is why people generally have a vision of both Brahma and Shri Krishna. Some have a vision of Vishnu, but they aren't able to understand as much from that vision. By having a vision of Narayan, they can understand something. We come here in order to become deities. You

are now studying the lesson of the beginning, middle and end of the world. A lesson is taught to you so that you can have remembrance. It is the souls that study. The consciousness of bodies is removed. It is the souls that do everything. Good and bad sanskars are in each soul. You sweetest children have come and met Me after 5000 years. You are the same ones. You have the same *features*. You are the same ones of 5000 years ago. You also say: “Baba, You are the same One who has come and met us after 5000 years and You are now changing us from human beings into deities. We were deities and we then became devils.” You have been singing praise of the deities and speaking of your own defects. You now have to become deities again because you have to go to the deity world. Therefore, now make very good effort and claim a high status. A *teacher* would tell everyone to study and would say: If you *pass* with good *marks*, my name will be glorified and your name will also be glorified. Many children say: “Baba, when I come to You, nothing emerges from inside; I forget everything.” As soon as you come to Baba, you become quiet. It is as though this world is finished. You will then go to the new world. That will be a very beautiful, new world. Some receive rest in the land of peace. Some don't receive any rest; they have *all-round parts*. However, they become liberated from being tamopradhan and experiencing sorrow. They then receive peace and happiness there. So, you should make effort so well. Do not think that you will receive whatever is destined for you. No, you have to make effort. It can be understood that a kingdom is being established. We are establishing a kingdom for ourselves by following shrimat. Baba who gives us shrimat never becomes a king, etc. We become that by following His shrimat. This is something new. No one has ever heard this before or even seen it. You children understand that you are now establishing the sovereignty of Paradise by following shrimat. We have established that kingdom countless times. We claim it and then lose it. This cycle continues to turn. When Christian priests go for a walk, they don't even like to look at other people. They simply stay in remembrance of *Christ*. They walk around in silence. They have that understanding. They stay in remembrance of *Christ* so much; they must surely have had a vision of *Christ*. Not all priests are like that; they are a handful out of multimillions. It is the same with you. Only a handful out of multimillions would stay in remembrance like that. Just *try* this and see. Do not look at anyone else. By remembering the Father and continuing to spin the discus of self-realisation, you will have a lot of happiness. Deities are said to be elevated and human beings are said to be corrupt. At this time, no one is a deity. It is said of Bharat: It is the day for half a cycle and the night for half a cycle. The Father says: I come and grant everyone salvation. Those who belong to other religions come at their own times to establish their religions. Everyone who comes here takes this mantra back with them: You have to remember the Father. Those who remember Him will claim a high status in their religion. You children should make effort to open a spiritual *museum* or *college*. Just write: Come and understand how you can receive the kingdom of the world of heaven in a *second*. Remember the Father and you will receive the sovereignty of Paradise. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. While walking and moving around, let there be remembrance of only the one Father. Practise not seeing anything while seeing everything. Sit in solitude and check yourself: To what extent have I imbibed divine virtues?
2. Do not perform any such actions that you would cause defamation of the Father. Imbibe divine virtues. Let it remain in your intellect: I now have to return home and then go into the kingdom.

Blessing: May you receive powerful fruit by having the *addition* of everyone's good wishes for service and thereby become an embodiment of success.

Whatever service you do, let it be filled with feelings of co-operation from all souls, with

feelings of happiness and good wishes and all tasks will easily then be successful. In the early days, when anyone used to go to carry out a special task, he would go with blessings from everyone in the family. So, this *addition* is needed for the present service. Before beginning any task, take everyone's good wishes and pure feelings. Fill yourself with the power of everyone's contentment and powerful fruit will then emerge.

Slogan:

Just as the Father says, "Yes, My lord", in the same way, when you also say, "Yes, my Lord! Yes, my Lord!" you then accumulate charity.

***** Om Shanti *****
