

06/09/25

Morning Murli Om Shanti

BapDada

Madhuban

- Essence:** Sweet children, the only concern you should have is how to show everyone the path to the land of happiness. Everyone should know that this is the confluence age in which you become the most elevated human beings.
- Question:** When do you children give congratulations to one another? When do human beings give congratulations to one another?
- Answer:** Human beings give congratulations when someone is born, when someone is victorious, on someone's wedding day or on a special, important day. However, those are not real congratulations. You children give one another congratulations for belonging to the Father. You say: "We are so fortunate that we have been liberated from all sorrow and that we are to go to the land of happiness." You experience happiness in your hearts.

Om shanti. The unlimited Father sits here and explains to you unlimited children. The question now arises: Who is the unlimited Father? You know that the Father of all is the One who is called the Supreme Father. A physical father cannot be called the Supreme Father. There is only the one Supreme Father and all the children have forgotten Him. Therefore, you children understand how the Supreme Father, the Supreme Soul, who is the Remover of Sorrow and the Bestower of Happiness, is removing your sorrow and that you will then go into peace and happiness. Not everyone will go into happiness. Some will remain in peace and others will go into happiness. Some play their *parts* from the golden age, some from the silver age and others from the copper age. When you live in the golden age, everyone else will be in the land of liberation. That is called God's home. When the Muslims say their prayers, they all get together and pray to God (Khuda). What for? Is it to go to Paradise or to go to God (Allah)? God's home cannot be called Paradise, there, souls stay in silence. There are no bodies there. They must know that they will go to Allah, not with their bodies, but as souls. One cannot become pure just by remembering Allah without knowing Him. Now, how can you advise people that the Father is giving everyone the inheritance of peace and happiness? How can you explain to them how there can be peace in the world and when there was peace in the world? *Serviceable* children think about these things, numberwise, according to the efforts they make. The Father has only given you Brahmins, you mouth-born creation, His introduction. He has also told you about the *parts* that all the people of the world play. Now, how can we give people the introduction of the Father and the creation? The Father tells everyone: Consider yourself to be a soul and remember Me and you will go to God's home. Not everyone will go to the *golden age*. There, there is only the one religion; all the rest are in the land of peace. There is no question of becoming upset about this. People ask for peace, but that can only be received in the home of Allah, *God the Father*. All souls come from the land of peace. Everyone will return there when the play comes to an end. The Father comes and takes everyone from this impure world back home. It is now in the intellects of you children that you are now to go to the land of peace and that you will then go to the land of happiness. This is the most elevated confluence age. "Elevated human beings" means those who are the highest-on-high beings. Until a soul becomes pure, he cannot become an elevated human being. The Father now says: Remember Me and understand the world cycle and also imbibe divine virtues. At this time, the *characters* of all human beings are spoilt. In that new world, their *characters* are *firstclass*. It is the people of Bharat who become ones with elevated *characters*. Those who have lesser *characters* bow down to those with elevated *characters* and also speak of their *characters*. Only you children understand this. How can you explain to others? What easy method should you create to open the third eye of souls? The soul of Baba has knowledge. People say that they have knowledge. That is body consciousness. Here, you have to become soul conscious. Sannyasis have the knowledge of the scriptures. You can only have the Father's knowledge when He comes and gives it. Explain this with tact. Those people consider Krishna to be God; they don't know God. Rishis and munis used to say that they didn't know but they did understand that human beings

cannot be God. Only the incorporeal Father is the Creator, but how does He create? What is His name, form, land and time? They don't know, so they say that He is beyond name and form. They don't have enough sense to realise that there cannot be anything without a name or form, that that is *impossible*. If they say that He is in the pebbles and stones or in a fish or a crocodile, that is a name and form. Sometimes, they say one thing and, at other times, they say something else. You children should think a lot, day and night, about how to explain to people. This is the most elevated confluence age in which you become deities from ordinary humans. Human beings bow down to the idols of the deities. Human beings don't bow down to the idols of human beings. Human beings have to bow down to God or the deities. Muslims also pray to Allah, they remember Allah. You know that they would not be able to attain Allah. The main thing is how to attain Allah. How then does Allah create that new world? How can you explain all of these things? You children have to churn the ocean of this knowledge for this. The Father doesn't have to churn the ocean of this knowledge. The Father teaches you children the way to churn the ocean of this knowledge. At this time, everyone in the *iron age* is tamopradhan. There will definitely be the *golden age* at some time. The *golden age* is said to be *pure*. There is *purity* and *impurity*. Alloy is mixed into gold. Souls too are *pure*, satopradhan, at first and then alloy is mixed into them. When souls have become tamopradhan, the Father has to come. Only the Father comes and creates that satopradhan land of happiness. There are only the people of Bharat in that land of happiness. All the rest remain in the land of peace. Everyone in the land of peace is *pure*, and then, when they come down here, they very slowly continue to become *impure*. Every human being definitely goes through the stages of sato, rajo and tamo. How can you tell everyone that they can all go to God's home? God speaks: Renounce all bodily relations and consider yourselves to be souls. When you remember Me, the five evil spirits will be removed from you. You children should have this concern day and night. The Father too is concerned and this is why He had the thought of coming here to make everyone happy. Together with Him, you children have to become His helpers. What could the Father do alone, by Himself? Therefore, churn this ocean of knowledge. What method should you create so that people can quickly understand that this is the most elevated confluence age? It is only at this time that people can become most elevated. First, they are elevated and then they fall; they don't fall straight away; they don't become tamopradhan as soon as they come down. Everything is at first satopradhan and then it goes through the stages of sato, rajo and tamo. You children hold so many exhibitions, but, in spite of that, people don't understand anything. Therefore, what other method should you create? You have to find different methods. You have been given *time* for this. No one can become complete and perfect instantly. The moon too only becomes full gradually. We became tamopradhan gradually and so it also takes *time* for us to become satopradhan. That is non-living and this is living. So, how can we explain? You should explain to the mullahs (heads of the mosques) of the Muslims why they pray (do namaz) and in whose remembrance they do it. You have to churn these things. *Presidents*, etc. go to mosques on big and important days. They go and meet the senior people. There are small mosques and there is also one main mosque where they all go and give greetings for Eid. Now, greetings are to be given when all of us become liberated from all types of sorrow and we then go to the land of happiness, only then can we say congratulations. We are giving you good news. When someone *wins* something, he is congratulated. Even when couples get married, they are given congratulations. "May you remain constantly happy." The Father has explained to you how you can give congratulations to one another. At this time, we are claiming our inheritance of liberation and liberation-in-life from the unlimited Father. You can receive congratulations for this. The Father says: Congratulations to you! You are becoming multimillionaires for 21 births. How can all the people claim their inheritance from the Father so that they can be congratulated? You now know all of this but people cannot congratulate you; they don't know you. When they give you congratulations, they too can become worthy of receiving congratulations. You are incognito. You can congratulate each other: Congratulations! We now belong to the unlimited Father. You are so fortunate! When someone wins a *lottery* or a child is born in his family, he is congratulated. When a child *passes* his examination, he is congratulated. You have happiness deep in your

hearts. You give congratulations to yourselves. “We have found the Father from whom we receive our inheritance.” The Father explains: All of you souls went into degradation and are now receiving salvation. Everyone received the same congratulations. At the end, everyone will come to know. Those who are lower down will give congratulations to those who are the highest of all. You become the emperors and empresses of the sun-dynasty clan. Those who are lower in the clan will give congratulations to those who become beads of the rosary of victory. Those who *pass* will be congratulated; they will be worshipped. Congratulations will be given to the souls who receive a high status. Those souls will then be worshipped on the path of devotion. People don’t know why they worship them. Therefore, the only concern you children should have is how to explain to others. “We have become pure, so how can we make others pure? The world is huge. What should we do so that the message can reach every home?” When leaflets are dropped, not everyone receives them. Each one has to have the message put into his hands, because no one knows at all how to reach the Father. They say that all paths lead to God. However, the Father says: You have been worshipping and making donations and performing charity for birth after birth and yet you didn’t find the path. They say that all of that has continued eternally, but when did it begin? They don’t understand the meaning of “eternally”. You, too, understand numberwise, according to the efforts you make. For 21 births, there is the reward of this knowledge which is happiness, and then there is sorrow. The accounts of those who have done the most devotion are explained to you children. Not all of these details can be explained to each one individually. What should we do? Print it in the papers? That would take *time*. Not everyone will receive the message that quickly. If everyone began to make effort, all of them would then go to heaven; it cannot be like that. You are now making effort for heaven. How can we make those who belong to our religion emerge again? How can you know who has been *transferred* (converted)? Those who believe in the Hindu religion belonged originally to the deity religion. No one even knows this. Those who are staunch Hindus will believe in their original, eternal deity religion. At this time, all are impure. They call out: “O Purifier come!” They call out to the incorporeal One to come and take them to a pure world. How did they claim such a huge kingdom? There is no kingdom in Bharat at this time which they would have defeated and claimed. They don’t attain their kingdom by battling. No one knows how ordinary human beings can be made into deities. You have now come to know this from the Father. How can we tell this to others so that they can attain liberation and liberation-in-life? There has to be someone who inspires them to make effort, so that they can know themselves and remember Allah. Ask them: “To whom do you give congratulations at the time of Eid? Do you have the firm faith that you are going to Allah? You have so much happiness in that. You have been doing that for many years. You become confused as to whether you will ever go to God or not. Why have we been studying? The Highest on High is Allah alone.” Tell them: “You too are souls, children of Allah. Souls desire to go to Allah. Souls are at first pure and have now become impure. This world cannot be called heaven now. All souls are impure. How can they become pure so that they can go to the home of Allah? Vicious souls don’t exist there; they have to be *viceless*. Souls do not become satopradhan immediately.” All of these things are to be thought about and churned. Baba churns the ocean of this knowledge and this is how he is able to explain to you. You too should create ways how to explain others. Achcha.

To you sweetest, beloved, long-lost and now-found children, love, remembrance and *Good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to you spiritual children.

Essence for dharna:

1. The Father had the thought of coming here and liberating the children from their sorrow and making them happy. You have to become the Father's helpers in the same way. You should also think of ways of enabling the message to reach every home.

2. In order to receive congratulations from everyone, make effort to become a bead of the rosary of victory. Become worthy of worship.

Blessing: May you wear a crown of *light* by having the awareness of being a karanhar (one who acts) and of Karavanhar (The One who inspires).

I am an instrument, a karma yogi, a karanhar (one who acts) and the Father is Karavanhar (The One who inspires). If you have this natural awareness, you will constantly have a crown of *light* and become a carefree emperor. Just the Father and I, and no third person: experiencing this easily makes you into a carefree emperor. Those who become such emperors become conquerors of Maya, conquerors of their physical senses and conquerors of matter. However, if, even by mistake, someone puts a burden of wasteful feelings and intentions on himself, then, instead of a crown, he would put many baskets of worry on his head.

Slogan: In order to become free from all bondages, become a destroyer of all attachment to bodily relations.

***** Om Shanti *****

Avyakt Signal: Now ignite the fire of love and make your yoga volcanic.

Your yoga can be powerful when all other thoughts have become quiet and there is just the one thought of “Baba and I”. All thoughts, apart from the experience of meeting the Father, should vanish. Only then could you say that your remembrance is as powerful as fire through which transformation can take place.
