

07/11/24

Morning Murli Om Shanti

BapDada

Madhuban

Essence: Sweet children, Shiv Baba has come to fill all your treasure-stores completely. It is said: When your treasure-stores are full, all your sorrow is removed.

Question: What one faith is very firm in the intellects of the knowledgeable children?

Answer: They have the firm faith that their *parts* will never be erased or wiped out. "I, a soul, have an imperishable *part* of 84 births fixed in me". If you have this knowledge in your intellects, you are knowledgeable. Otherwise, all the knowledge disappears from your intellects.

Om shanti. What does the Father come and say to you spiritual children? What service does He do? At this time, the Father does the service of teaching you this spiritual study. You know this. He plays the *part* of the Father, the *part* of the *Teacher* and also the *part* of the Guru. He plays all three *parts* very well. You know that He is the Father and also the Guru who grants salvation to everyone. He is for everyone; for the young, the mature, the old and the adolescents, there is just the One. He is the *Supreme* Father and the *Supreme Teacher*. He gives unlimited teachings. You can explain at the *conferences* that you know the *biography* of everyone. You also know the biography of the Supreme Father, the Supreme Soul, Shiv Baba. Your intellects remember all of this, numberwise. The whole unlimited, variety-form image must surely be in your intellects. You have now become Brahmins and you will become deities, warriors, merchants and then shudras. You children remember this, do you not? No one apart from you children, would remember these things. Let the whole significance of the rise and fall remain in your intellects. We were in the stage of rising and we then went into the falling stage and we are now in the middle. We are no longer shudras but have not yet become complete Brahmins either. If we were firm Brahmins, we wouldn't perform any shudra *acts*. Even Brahmins have some shudra traces. You know when you began committing sin: from the time you climbed on to the pyre of lust. You have the whole cycle in your intellects. Up above is the Father, the Supreme Father, the Supreme Soul, and then there are you souls. You children should definitely keep these things in your intellects. We are now Brahmins and are becoming deities and we will then go into the merchant *dynasty* and the shudra *dynasty*. The Father comes and changes us from shudras to Brahmins and we then change from Brahmins to deities. We become Brahmins, attain our karmateet stage and then return home. You know the Father. You also know the somersault and the cycle of 84 births. Baba explains to you very *easily* using the example of the somersault. He makes you very light so that you can consider yourselves to be points and quickly run home. When *students* are sitting in *class*, they just have their *studies* in their intellects. You too should remember this study. We are now at the confluence age; we will then go around in this way. This cycle should constantly rotate in your intellects. Only you Brahmins have the *knowledge* of this cycle etc. Shudras do not have it. Even deities do not have this knowledge. You now understand that all the pictures that have been made on the path of devotion are *defective*. You have *accurate* pictures because you are becoming *accurate*. You have now received this knowledge and this is why you understand what is referred to as devotion and what is referred to as knowledge. You have now found the Father, the Ocean of Knowledge, who gives you this knowledge. When studying at *school*, you are aware of your *aim* and *objective*. On the path of devotion, there is no *aim* or *objective*. You didn't know that you were elevated deities and that you then fell down. It is now you have become Brahmins that you know this. You definitely became Brahma Kumars and Kumaris previously too. The name of Prajapita Brahma is glorified. Prajapita is a human being. He has so many children, and so they must surely be *adopted*. So many are *adopted*. As souls, all are brothers. Your intellects now go so far. You know that just as there are *stars* up above, and they appear to be so small from a distance, so, you too are very tiny souls. A soul never becomes larger or smaller. Yes, your status is very high. They call them the sun deity and the moon deity. The Sun is said to be the Father and the moon is said to be the mother and all the other souls are stars of the sky. So, all souls are tiny and the same. Souls come here and become actors. Only you become deities. We are becoming very

powerful. By remembering the Father, we will become satopradhan deities. There is a little difference, numberwise. Some souls become pure and become satopradhan deities, whereas other souls don't become completely pure. They don't have any of this knowledge at all. The Father has explained: Everyone definitely has to receive the Father's introduction. At the end, they will know the Father. At the time of destruction, everyone will realise that the Father has come. Even now, some people say: "God has definitely come somewhere", but they can't tell where. They think that He could come in any form. There are many human dictates. Yours are only one - God's directions. What are you becoming by following God's directions? One are human dictates and next are God's directions and third are the directions from the deities. Who gave directions to the deities? The Father. It is the Father's shrimat that makes you elevated. Only the Father, and not human beings, is called Shri Shri. Shri Shri comes and makes you shri (elevated). It is only the Father who makes elevated deities. He is called Shri Shri. The Father says: I make you so worthy. Those people have then given themselves the *title* Shri Shri. You can explain at *conferences*. Only you have become the instruments to explain to them. Only the one Shiv Baba is Shri Shri who is making us into shri deities. Those people study the scriptures or other studies and receive a *title*. The Father who is Shri Shri is Himself making you shri, which means elevated. This is a tamopradhan, corrupt world. People take birth through corruption. There is such a great difference between the Father's *title* and that title which those impure human beings give themselves. Truly elevated and great souls are the deities. In the satopradhan world, there cannot be any tamopradhan human beings. In the rajo stage, there would only be human beings with the rajo stage, not tamoguni human beings. The clans are also remembered. You now understand this, but, previously, you didn't understand anything. The Father is now making you very sensible. You are becoming very wealthy. Shiv Baba's treasure-store is completely full. What is Shiv Baba's treasure-store? (That of the imperishable jewels of knowledge.) Shiv Baba's treasure store is completely full and all sorrow is removed. The Father is giving you children the jewels of knowledge. He Himself is the Ocean. He is the Ocean of the jewels of knowledge. The intellects of you children should go into the unlimited. All of those billions of souls are seated on the thrones of their bodies. This is an unlimited play. Souls are seated on those thrones. No two thrones are the same; each one's *features* are different. This is called the wonder of nature. Each one has an imperishable *part*. Such tiny souls have parts of 84 births *recorded* in them. They are extremely subtle. There cannot be any *wonder* more subtle than this. Such tiny souls are filled with whole *parts* and those *parts are* played here. No *part* is played in the subtle region. The Father explains to you so well. You come to know everything from the Father. This is *knowledge*. It isn't that He is the One who knows what is inside each one. He knows this *knowledge* and this *knowledge* is now *emerging* in you too; and, it is through this *knowledge* that you claim such a high status. You have this understanding, do you not? The Father is the Seed. He has this *knowledge* of the beginning, middle and end of the tree. Human beings have given it a duration of hundreds of thousands of years, and so they cannot have any of this knowledge. You are receiving all of this knowledge now at the confluence age. You have now come to know the whole cycle from the Father. Before this, you didn't know anything. You are now at the confluence age and this is your final birth. By making effort, you will eventually become complete Brahmins. You are not that now. Now from Brahmins, even very good children become shudras once again. This is called being defeated by Maya. You become defeated in Baba's lap and go into Ravan's lap. There is such a difference between the Father's lap in which you become elevated and the other lap in which you become corrupt. You receive liberation-in-life in a *second* and you reach a stage of complete degradation in a *second*. You Brahmin children know very well how there is degradation. Today, you belong to the Father, and tomorrow, you are caught in the claws of Maya and belong to Ravan. Then, when you try to save them, some of them are saved. When you see that someone is drowning, you continue to try and save him. There is so much conflict. The Father sits here and explains to you children. You are studying here in *school*. You know how you go around this cycle. You children receive shrimat: Do this and this. There are definitely the versions of God. These are His elevated directions: I have now come to make you children into deities from shudras. Now, in the iron age, there is the

shudra community. You know that the iron age is coming to an end and that you are sitting at the confluence age. You have received this *knowledge* from the Father. All the scriptures that have been created have human dictates in them. God does not write any scriptures. They have given so many titles to just the one Gita: the Gandhi Gita, the Tagore Gita etc. There are so many titles. Why do people study the Gita so much? They don't understand anything at all. They just take up a few chapters and extract their own meanings from them. All of that is created by human beings. You can tell them: By your studying the Gita written by human beings, this has become the condition of today. The Gita is the *number* one scripture. This is the scripture of the deity religion. This is your Brahmin clan. This is also the Brahmin religion. There are so many religions. Whoever creates a religion, his name continues. The Jains speak of Mahavir. All of you children are mahavirs. Your memorial is in the temple. There is Raja Yoga. Down below, you are sitting in tapasya or yoga and, up on the ceiling, there are the pictures of the kingdom. That is an *accurate* temple of Raja Yoga. Then, some gave it one name and others gave it another name. The memorial is absolutely *accurate*. They have used their intellects and made it very well. Then, whatever name someone gave, they kept that name. That is a *model* that they have created. Heaven and Raja Yoga are created at the confluence age. You know the beginning, middle and end. You have also seen the beginning. You can call either the confluence age or the golden age the beginning. The *scene* of the confluence age is shown down below and the kingdom is shown up above. So, the golden age is the beginning and the copper age is the middle period. You are now seeing the end. All of this is to end. An accurate memorial has been created. The deities themselves go onto the path of sin. The path of sin begins with the copper age. The memorial is very *accurate*. They have created many temples as memorials. All the signs are here. Temples are created here too. The deities, the residents of Bharat, ruled and then departed. Then, later, they built so many temples. When there are many Sikhs, they build their own temple. Those of the *military* also build their own temple. The people of Bharat build temples to Krishna, Lakshmi and Narayan, Hanuman and Ganesh. Look how the world cycle turns. How establishment, destruction and sustenance take place. Only you know this. This is called the dark night. The day and night of Brahma are remembered because it is Brahma who goes around the cycle. You are now Brahmins and will then become deities. The main one is Brahma. Should it be Brahma's name or Vishnu's name? Brahma exists in the night and Vishnu exists in the day. That same one goes from the night into the day. Then, from the day, during 84 births, he goes into the night. The explanation is so easy. Even that cannot be remembered fully. If you don't study well, the status you claim is numberwise, according to your efforts. The more remembrance you have, the more satopradhan you will become. Satopradhan Bharat then becomes tamopradhan. You children have so much of this knowledge: you have to churn this knowledge. This knowledge is for the new world. The unlimited Father comes and gives it to you. All human beings remember the unlimited Father. English people say: *O God, the Father, Liberator, Guide!* You children have the meaning of these words in your intellects. The Father comes and removes you from the *iron age*, this world of sorrow, and takes you to the *golden age*. The *golden age* definitely *passed*, which is why they remember it. You children should have a lot of happiness inside you. You should also perform divine acts. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to you spiritual children.

Essence for dharna:

1. Keep in your awareness the infinite treasures of the imperishable jewels of knowledge that you receive from the Father and take your intellect into the unlimited. See as a detached observer the wonder of nature and how souls are seated on their own thrones in this unlimited play.
2. Your intellect should always remember that we are confluence-aged Brahmins. We have received the elevated lap of the Father. We cannot go into Ravan's lap. Our duty is to save those who are drowning.

Blessing: May you be truly loving and increase your experience of all relationships instead of allowing *pillars* of waste thoughts to support you.

Maya puts up many *royal pillars* to strengthen your weak thoughts. She repeatedly brings the thoughts, “This happens all the time” “Even the seniors do this.” “No one has yet become complete.” “There will definitely be some weakness remaining.” These *pillars* of waste thoughts make the weaknesses even stronger. Now, instead of taking support from such *pillars*, increase your experience of all relationships. Experience the company in the corporeal form and be truly loving.

Slogan: Contentment is a very great virtue. Those who remain constantly content are loved by God, loved by people and loved by themselves.

***** Om Shanti *****
