Morning Murli Om Shanti

BapDada

Madhuban

Essence: Sweet children, your duty is to caution one another by reminding them of the Father and the inheritance. Benefit for everyone is merged in this.

Question: What deep secret that even scientists cannot understand do you children understand?

Answer: You understand that a soul is an extremely subtle *star* and that all the sanskars are in the soul. Each soul plays his own *part* through a body. The body is non-living whereas the soul is living. In the same way, the Supreme Soul is also a *star*. He has all the *knowledge*. He is the Seed of the human world. He is the Truth and a living Being. He is not brighter than a thousand suns. Only you children understand this deep secret. Scientists cannot understand these things. First of all, you children have to give everyone the recognition of souls and the Supreme Soul.

Song: Mother, O Mother, you are the Bestower of Fortune for All.

Om shanti. The Father says to you children: May you be spinners of the discus of self-realisation! The Father has cautioned you children in this way. You children then also have to caution one another. By remembering the Father, you quickly have that intoxication. By reminding one another, you caution one another. When you meet someone, you greet each other with “Namaste” but there is no benefit in that. There is only benefit when you children caution one another. Everything is included in the expression: “Spinner of the discus of self-realisation”. It has the introduction of the Father, the status and the cycle. Therefore, it is your first and foremost duty to caution one another. By reminding them, they will be careful. You repeatedly have to caution one another: Continue to remember the Father and the inheritance. Become spinners of the discus of self-realisation, consider yourselves to be bodiless and remember the bodiless Father. Remembrance means yoga. It is only by having yoga that your body becomes free from disease. This is the effort to make at the present time. At the end, when you reach your karmateet stage, you will become completely free from disease. At the moment you are still effort-makers. At the moment, the Father is sitting here and explaining to you children because He knows that all of you are senseless. When people worship deities etc., none of them knows what their (the deities) *occupation* was. Therefore, you have to explain to them: We can tell you everyone's *biography*. First of all, the main thing to know is the Supreme Father, the Supreme Soul. Many people are confused about this too. They say: God doesn't have a name or form. So, the first and foremost thing to tell them is the difference between a soul and the Supreme Soul and also this knowledge. You know that all are souls. It is said: Charitable soul, sinful soul. You would not say: Sinful Supreme Soul. This is an impure world. God cannot be impure. This is why human beings first have to know about souls because no human beings have knowledge of souls. It is souls that listen. It is souls that eat and drink. This soul does everything through these *organs*. What is the form of a soul? They say: A wonderful star sparkles in the centre of the forehead. Therefore, you have to explain to them the form of a soul. The form of a soul is not that large. A soul is extremely subtle. The form of a soul is a *zero* or a point. You should now think about how subtle a soul is. People ask: How does a soul leave a body? Where does he leave from? Some say: He leaves the body through the skull. Some say that he leaves the body through the eyes because a body has many doors. However, it is so *wonderful* to know what a soul is! Some ask: How does a soul leave a body? They don't ask: How does a soul enter a body? First of all, you have to know what a soul is. Such a tiny soul has a *part* of 84 births recorded in him. These matters are *most wonderful*. A soul is truly like a *star*; it cannot be called big. When an *aeroplane* goes high up, it appears to be very small. However, souls are not big. They only have one form. Therefore, you should first of all know about souls. How do I, this soul, enter this body? Some people have visions, as though there is a *star*. That tiny Soul has all *knowledge* recorded in Him. That Soul is just one. This is a great *wonder*! No one knows about the form of God. In fact, as is a soul,

so the Supreme Father, the Supreme Soul. He is the Father. Although a father and children here are bigger and smaller, souls are not bigger or smaller. There is no difference between the form of souls and the form of the Supreme Soul but there is a difference between the *parts* and the *sanskars* of everyone. The Father explains what *sanskars* He has and what *sanskars* you souls have. Because of not knowing the form of souls and the Supreme Soul, people have said that souls and the Supreme Soul are one and the same. They have created great confusion. It is very essential to know this. There is God and also Brahma, Vishnu and Shankar. Each of them has a soul in him. Jagadamba, Saraswati, is called the *Goddess of Knowledge*. Therefore, the soul of Saraswati would surely have *knowledge*. However, what *knowledge* does she have? No one knows this; they simply call her the *Goddess of Knowledge*. When there are *articles* etc. printed in the newspapers, you can explain about them. You say that Saraswati is the *Goddess of Knowledge*, but what *knowledge* does she have and when does she give it? She must definitely have received that *knowledge* from *God*. What is the form of *God*? How was she given the name "*Goddess of Knowledge*"? It is *God* who is *knowledge-full*. How did He make Saraswati *knowledge-full*? You should make someone 'stand' at the confluence age with just this one aspect. Baba says: I explain to you whereas Sanjay (Jagdishbhai) is the instrument to write about it. That one is a *number one* main actor. He should be Baba's *right hand*. However, the destiny of the *drama* is such that he has to live in Delhi. He has the same *part* as in the previous cycle. Arjuna's name is remembered as the main one. You children now understand the meaning of everything. First of all, you have to understand about souls and the Supreme Soul. The Father has explained to you children how a soul is a *star* and how all the *knowledge* is recorded in him. None of the scientists would be able to understand this. All the *sanskars* are in souls. A soul is a *star*. OK, so what is the form of *God*? He is the Supreme Soul; there is no difference. The praise that people sing of Him being brighter than a thousand suns is wrong. The Father says: It is just that you souls don't have *knowledge*. I, the Supreme Soul, am *knowledge-full*. This is the only difference. Maya has made you souls impure. However, it is not that a soul is a flame that has been extinguished. It is just that the *knowledge* of the Father and creation has disappeared from souls; you are now receiving it. Baba has *knowledge* and that is in the soul. He isn't any larger. He is called *knowledge-full* and Saraswati is also called *knowledge-full*. However, when did she receive *knowledge*? Whose daughter is Saraswati? No one knows this. Therefore, it should enter your hearts how you can explain to them. Who is *God*, the Father? You also have to explain that He is a *star* and that He has all *knowledge* in Him. *God, the Father*, is the Seed of the human world. He is the unlimited Father of everyone. He is the Truth and a living Being. He has true *knowledge* in Him. He is also called the *Truth*. No one else has true *knowledge* in him. Only the one Father is the Creator. So, He definitely has the *knowledge* of the whole of creation in Him. He is the Seed of the tree. A soul is living whereas a body is non-living and it becomes living when a soul enters it. The Father explains: I am that same One. A soul cannot be larger or smaller. Just as you are souls, so *God* is the Supreme Soul and His praise is the highest of all. He is the Seed of the human world. Only human beings remember Him. You know that the Father resides up above. Souls say through these *organs*: O Supreme Father, Supreme Soul. People don't know this because they are body conscious. You have now become soul conscious. You have the faith that you are souls. You know that only the incorporeal One is called *God*. You are His children. *God* comes and gives you *knowledge*. He is called the *Knowledge-full* and *Blissful* One. He has been given the praise: The Ocean of Mercy, the Ocean of Happiness, the Ocean of Peace. Therefore, you children should definitely receive the inheritance from the Father. It is because He came and gave the inheritance at some time that He has been remembered. The praise of the deities is separate from the praise of the Father. He is the Father of all souls. Because He is the *Creator*, He is called the Seed. First of all, you have to give His introduction. It is shown in the scriptures that He is thumb shaped. We say that He is a point of light. We have also created that picture, but He is not that big. He is extremely subtle. So, what should we explain? They would ask us: Why have you shown such a big image in the picture? Tell them: What else should we have? He is just a point, so how would you worship Him? How would you offer Him milk? That form was created in order to worship Him. However, you understand that He is the Supreme Father, the

Supreme Soul, who resides in the supreme abode. That supreme abode is our *sweet home*. The incorporeal world is the original home, then there is the subtle region and then the corporeal world. The Father resides in the incorporeal world. The soul says: I want to go to the land of nirvana where there aren't even these *organs*. A soul comes and adopts a body. How can you explain where souls leave a body from? You know that each soul enters a foetus which then becomes living. It is such a tiny soul and all his sanskars are recorded in him. Then, one by one, the sanskars of each birth emerge. The Father explains: You have to understand everything very well. You can also explain about Saraswati. Whose daughter is she? At this time, none of you can be called *goddesses*. Saraswati is the daughter of Brahma. Therefore, he must be the *God of Knowledge*. It is shown that knowledge was given through the lotus lips of Brahma. Therefore, Brahma's name is also mentioned. At this time you are Brahmins. Although a soul may be becoming *pure*, the body cannot be *pure*. This is a tamopradhan body. The Father explains: Children, continue to caution one another and continue to make progress: Do you remember the Father and the inheritance? Do you remember the discus of self-realisation? Baba says: Not a single one would caution anyone in this way. By remembering the Father, you become conquerors of sleep. There is a lot of income earned in this. There is no tiredness when earning an income. However, you also have to do physical work and this is why there is tiredness. The Father explains: Even stay awake at night and talk to Baba. You have to dive into the Ocean of Knowledge, just as an animal dives into water. So, by diving in this way and by churning the ocean of knowledge, you can see that you receive many *points*. They emerge from nowhere. This is staying awake at night and churning the ocean of knowledge. People don't know anything at all, and so you have to explain to them. The Father is the Ocean of Knowledge and you are to receive the inheritance from Him. Those who belonged to the original eternal deity religion in the golden age definitely received their inheritance. How did the whole kingdom receive the inheritance? It doesn't take long for it to become the golden age from the iron age. The night comes to an end and the day begins. There is a vast difference between the *iron-aged world*, the land of sorrow, and that land, the land of happiness. There is so much difference between the night of Brahma and the day of Brahma! You are now receiving *knowledge* from *God the Father*. What was it that Saraswati used to do? No one knows. People simply received a picture of Saraswati, the *Goddess of Knowledge*, and they became happy with that. Therefore, you have to caution them. You have to give them God's introduction. Then you also have to give the introduction of Brahma, Vishnu and Shankar. The Father came and gave this *knowledge* and changed ordinary humans into Narayan. Explain each one's *occupation* very tactfully. Saraswati is also a mouth-born creation of Brahma. Therefore, the Supreme Father, the Supreme Soul, definitely came and created mouth-born creation through Brahma. To whom did He give *knowledge* first of all? It is said that the urn was given to Saraswati. They have removed Brahma from in between. No one knows that He entered the body of Brahma and gave the urn to the mothers. Therefore, Brahma too would surely listen to knowledge. They have also shown scriptures in the hands of Brahma. The directions of Brahma are very well known. So, he too would give directions that are the essence of all the Vedas and scriptures. Shiv Baba explains through Brahma. Where did Brahma come from? Where did this chariot come from? No one knows. Baba has explained now to you and so you can explain it to others. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. Stay awake at night and churn the ocean of knowledge. Take a dip in the Ocean of Knowledge. Become conquerors of sleep by remembering the Father.
2. Continue to spin the discus of self-realisation. Remind one another of the Father and your inheritance. Caution one another and continue to make progress.

Blessing: May you be a powerful soul and transform wasteful into powerful by considering yourself to be confluence aged.

This confluence age is a powerful age. So, constantly remain aware: We live in a powerful age, we are children of the Almighty Father, we are powerful souls. Wastage will then finish. The iron age is waste and since you have stepped away from the iron age and become confluence aged, you have stepped away from waste. If you remember even just the time, then, according to the time, you will perform actions naturally. For half a cycle, you had waste thoughts and you performed wasteful actions. However, now, as is the time, as is the Father, so are the children.

Slogan: Those who always follow the Godly rules are the *master* bestowers, the same as Father Brahma.

***** Om Shanti *****
