

23/03/23

Morning Murli Om Shanti

BapDada

Madhuban

Essence: Sweet children, become soul conscious and you will easily develop the speciality of breaking off your relationships with the old world and forging a relationship with the new world. Your *love* for the one Father will be forged.

Question: The intellects' yoga of which children can remain constantly connected to the Mother and Father from beyond?

Answer: Those who die alive and remain constantly engaged in doing Godly *service*; those who, while living at home with their families, do the service of connecting the intellects of everyone in yoga to the Father, who give others the enlightenment they have received from the Father and show others the way to become pure in order to make them into the masters of heaven. The intellects' yoga of those children is automatically connected to the Father.

Song: Who is the Father and who is the Mother?

Om shanti. What is the meaning of the song? It is said: Forget your physical mother and father and your friends and relatives etc. and connect your intellects in yoga to your true Mother and Father, who is the Creator of the World. You now have to break off your relationships with those parents and your friends and relatives etc. and connect yourselves to the One. That One is also called the Mother and Father. "You are the Mother and Father, and we are Your children". Everyone says this to the One. Everyone's physical parents are different. That One is the Mother and Father of the whole of Bharat, of the whole world. Therefore, you have to belong to the Mother and Father from beyond and leave your worldly friends and relatives. For this, you need the knowledge of how to become soul conscious. Unless you become soul conscious, it is very difficult to leave and become free. You have to break off your relationships with this old world and form them with the new world. This is a speciality. To break off relationships with one limited home and forge a connection with another limited home is very easy. You break and connect in every birth; you leave one set of parents and friends and take another. When you shed your body, you have new parents, new friends, relatives and gurus etc. Here, it is a question of dying alive. You are adopted while alive by the Mother and Father from beyond. You have to forget all the iron-aged parents etc. That One is the Father but how He is also the Mother is a very deep matter. The Father adopts this body and makes you His children through this one. However, some children repeatedly forget this. On the path of ignorance, they never forget their parents. They forget this Mother and Father because this is something new. You have to connect your intellects in yoga to that Mother and Father and then remain engaged in doing *service*. Just as the Father is concerned about *service*, so you children should also be just as concerned. It is said: God was concerned to make the world new or create a new world. So, this is such a great concern. The unlimited Father has the unlimited concern to purify everyone. He has to teach Raj Yoga for that pure world of heaven. He has to teach this to so many. The intellect's yoga of everyone has to be connected to the Father. This is the business of us children. The Father says: While living at home with your families, you children have to do *service*. Sannyasis are concerned to liberate others from the happiness that is like the droppings of a crow and to make them pure. They also have a *responsibility* to make others have disinterest and make them pure. They believe that they have to leave their homes and families. They don't understand that they have to leave the impure world. It is only when the Father comes and grants visions of the pure world that we break our connections with the impure world. Nevertheless, they still consider themselves to be responsible and so they leave their homes and families and inspire so many others to have disinterest and make them pure. Their praise is also sung. If there weren't that religion of renunciation, Bharat would have been burnt completely away on the pyre of lust. The Father sits here and explains who establishes that rajoguni renunciation and who establishes this satopradhan renunciation. Their *head* was Shankaracharya and he too had so many

followers. There would probably have been hundreds of thousands or millions of them. If they hadn't remained pure, the number of people following them would not have increased. Therefore, the sannyasis have done some good. Deities are considered to be the *first number* and sannyasis are considered to be the second *number*. Everything depends on purity. The world has to become impure from pure and pure from impure. Whatever has happened in the *past* from the golden age onwards is fixed in the *drama*. Whatever visions you have had on the path of devotion, *second by second*, you will have those same visions again after a cycle. All of this is fixed in the *drama*. You have to understand the *drama* and the cycle. Don't just sit down and think that whatever is in the *drama* is fine. All are *actors* in the *drama*, but each one still makes effort for his or her own livelihood. No one can stay without making effort. Many people understand that this is a play and that we have come from the supreme abode to play our *parts* but they are unable to explain this in detail. They don't know which religion comes first or how the world is created. Because of not knowing whether a new world is created or whether the Father comes and makes the old world new, they have shown annihilation and then shown a new world. The Father comes and enlightens you about these things. Then, you too are *responsible* for enlightening others. There is so much *service* to be done. The Father has shown you the path to liberation and liberation-in-life, for which you have been stumbling around on the path of devotion for half a cycle. The unlimited Father is concerned about how to make His *Salvation Army* grow and how to show everyone the path. You children should tell everyone that the Father has come to teach you Raj Yoga exactly as He did in the previous cycle. It is to Him that people say: Salutations to Shiva. He is the highest of all and He resides in the supreme abode. All of us souls also reside there. Souls are always considered to be *immortal*; they never burn or die. Each soul has a *part* recorded in him. Look at your own soul and look at the souls of the main ones. When you look at a tree, you think about its main *foundation* and its branches and twigs. There are so many leaves that you cannot count them; it is possible to count the branches and twigs. Therefore the *foundation* of this tree truly is of us deities. This tree's *foundation* has now decayed just like the *foundation* of a banyan tree. Nevertheless, so many branches have emerged. Leaves continue to emerge from the branches. Therefore, this too is such a big, unlimited tree. You children know this, numberwise, according to the efforts you make. It isn't that someone's intellect thinks about this throughout the day. It is difficult for all the *points* to be churned at the same time by your intellects. Nevertheless, these points continue to trickle into the intellects of those who churn the ocean of knowledge. When you have the tree in your intellect, you also remember the Father, the Seed. We too are residents of that place and then we are the *all-rounders* of this tree who come at the beginning and stay till the end. When you reach your impure state of total decay, the whole tree also reaches that stage. Those who existed at the beginning have also now become old. The branches that come later on are also old. Those who are *serviceable* are concerned about becoming Baba's helpers and changing human beings into deities once again. This has to be explained. You were deities and you then became warriors. Only you can talk about your horoscope of 84 births. Only when these things continue to trickle into your intellects will you be able to explain to others. You should think about how you children are Baba's helpers. So, it should enter your intellects how you can explain the secrets of the *drama* to anyone, how to connect their intellects in yoga to the Father and inspire them to make effort to change from human beings into deities, that is, to show them the way to claim their unlimited inheritance from the Father. Only those who have been shown the way by the Father would show it to others. The Father alone comes and teaches you Raj Yoga, that is, He opens the *gates* to liberation and liberation-in-life. Continue to churn the ocean of knowledge in this way throughout the day. You also have to imbibe a very sweet nature. You mustn't burn or die because of someone else's nature; you have to tolerate it. *Serve* yourself. As much as possible, give *time* to doing *service*. Ask yourself: Do I constantly say, "Baba, Baba"? Baba is concerned about unlimited *service*: What am I, a child of Baba's, doing? I should do so much *service*! You have a lot of *time*. You should feel mercy for all the poor ones who are separated from the Father. They continue to stumble around and commit sin. Some people divert you from the Father and confuse everyone. It is the duty of you Brahmins to give everyone knowledge and bring

them in front of Baba. You Brahmins are the true children of the God of the Gita. You have been given *authority*. You only have the knowledge of the Gita in your intellects. Those who can't explain cannot be called Brahmins. They would be called *half-caste or quarter-caste*. Their name is Brahmins but they do the business of shudras. Their intellects are like those of shudras. In Ajmer, there are the Pushkarni brahmins; they are the ones who relate the Gita scripture. That is their business; it is not their duty to go and eat at people's houses. Their work is simply to read the scriptures and take alms. You are true Brahmins, children of the unlimited Father. Prajapita Brahma is the Father of unlimited people and Shiv Baba is the Father of all souls. His residence is the supreme abode. He is the One who purifies the impure and this is why the whole world remembers Him. When they say, "O God," they have the incorporeal One in their intellects. However, the chains of the gurus trap them. They don't even know the *occupation* of the deities they worship; they worship them while considering them to be dolls. They don't know their *occupation*, which is why it is called the worship of dolls. So, there is so much difference! Many people are confused about this. There is the difference of day and night between the characters and features of deities and those of human beings. People sing: You are full of all virtues and we are degraded sinners. They say this, so who was it who made them like they are? It is truly hell now, so can we once again become the masters of heaven? People never have this thought. You children too would never ever have wondered whether you could become like them; you simply continued to perform devotion. You know that you now have to become like those deities. You have to claim a high status in your kingdom and this is why you are making effort. Internally, you should be concerned about what status you would receive if you were to leave your body now. You can even ask: If I were to leave my body now, what status would I receive? Baba would instantly tell you: You would receive a status worth a few pennies. You would claim a status worth eight annas, twelve annas or even worth shells. The status of a subject is said to be worth shells. Look at your face in the mirror of your heart: Is there any monkeyish behaviour? Impure arrogance is *number one*. You may conquer lust and anger, but arrogance of the body is the *number one* enemy. It is only by your becoming soul conscious that all the vices will cool down. Only when your *love* is connected to the Father can you become soul conscious. The *love* of those who are body conscious cannot be connected. A lot of effort is required to renounce body consciousness. Those who are soul conscious remain very cheerful. The faces of those who are body conscious are like those of a corpse. Therefore, the first and foremost thing is to become soul conscious. Only then will the Father help. Many people remain viceless, but they repeatedly forget that they are souls and that they have to stay in remembrance of the Father; they *fail* in this. How would you go back home if you don't remain bodiless? You should be very concerned about doing *service* so that many people can be benefited. Wherever body-conscious people go, they *fail*. Those who are soul conscious come back having shot someone with an arrow. The others would feel that what So-and-so said was right. When your yoga is connected, you would also be concerned about doing *service*. For that, you first of all have to explain about Alpha. When you speak too much, they get bored. First of all, you have to explain about "Salutations to Shiva," and also the three floors. One is the incorporeal world where the Supreme Father, the Supreme Soul, and all souls reside. The others are the corporeal world and the subtle region. There was the kingdom of Lakshmi and Narayan in heaven. It doesn't exist now. *History* will then *repeat*. Previously, there was the iron age, then there was the golden age and now the *history* of the iron age is *repeating*. Therefore, the *history* of the golden age will also *repeat*. Only in this is there pleasure. These *points* are very good. Achcha.

To all the children who are the decoration of the Brahmin clan, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. You mustn't burn or die because of the sanskars or natures of others. Make your nature very, very sweet. Become tolerant.

2. In order to become a helper of the Father, churn the ocean of knowledge. Make your intellect churn knowledge. Make effort to remain soul conscious.

Blessing: May you have all your relationships with the one Father and bid farewell to Maya as an easy yogi.

When you have a relationship with someone, your remembrance of that one becomes natural. To have all your relationships with the one Father is to be an easy yogi. By becoming an easy yogi, you bid farewell to Maya. When Maya leaves you, blessings from the Father then make you move forward a great deal. Those who receive blessings from God and the Brahmin family at every step easily continue to fly.

Slogan: Become a *businessman* who is always *busy* and you will have an income of multimillions at every step.

***** Om Shanti *****
