Morning Murli Om Shanti

BapDada

Madhuban

Essence: Sweet children, instil the habit of churning the ocean of knowledge. Churn the ocean of knowledge in solitude early in the morning and many new *points* will enter your intellects.

Question: In order for you children to make your stage *first class*, what things should you constantly pay attention to?

Answer: 1. Only listen to the things that the one Father tells you. Don't listen to anything else of this world. 2. Be cautious about the company you keep. Keep the company of only those who study well and who imbibe this knowledge and your stage will become *first class*. Seeing the stage of some children, Baba has the thought that something should change in the *drama*, but then He says: A kingdom is being established.

Om shanti. Only the one unlimited Father sits and explains to you unlimited children. He teaches you. Whatever all the rest of the human beings study and listen to, you don't have to listen to or study any of that because you have understood that this alone is a Godly study and that you have to study it at this time. You have to study with God alone. Whatever the Father teaches you *orally*, you have to study that. Those people write many types of books which the whole world studies. They would be studying so many different books. Only you children say that you have to listen to the One alone and then relate that to others because there is benefit in only that which you hear from Him. However, otherwise, there are many books and many new ones continue to emerge. You know that only the one Father tells you *righteous* things; that is all. You simply have to listen to Him. The Father explains very little to you children. He explains to you in *detail* and then comes back to the same thing. Although the term 'Manmanabhav' that Baba uses is *right*, Baba did not say that. The Father says: Consider yourselves to be souls and remember Me, your Father, and imbibe the knowledge of the beginning, middle and end of the world that I tell you. Only you know that we, who are going to become deities, will grow in number. You children remember the incorporeal world and also the new world. First of all is the highest-on-high Father, then there is the new world where the highest-on-high Lakshmi and Narayan rule the kingdom. The pictures are definitely needed. So, those signs still remain. This is the only picture of it. There is also the picture of Rama, but the kingdom of Rama would not be called *heaven*; that is *semi*. The highest-on-high Father is now teaching you. There is no need for any books etc. here. These books are not going to continue so that you could study in your next birth. This study is just for this birth. This is also the story of immortality. The Father also gives you teachings for the new world to change you from ordinary humans to Narayan. You now also know the cycle of 84 births. This is the time to study. Your intellects should be constantly churning. You also have to teach others. Wake up early in the morning and churn the ocean of knowledge. Very good churning can take place early in the morning. Only those who explain to others would churn; they extract *topics* and *points*. You listened to the things of devotion for birth after birth. You will not listen to this knowledge for birth after birth. The Father gives you this knowledge once and you then forget this *knowledge*. There are so many books on the path of devotion. They also receive books from abroad. All of this is to end. There is no need for any books in the golden age. All of those are the paraphernalia of the iron age. Whatever you see here – *hospitals, jails, judges* etc. - will not be there. That will be a completely different world. It will be this same world, but there would be a difference between the new and the old. That is called heaven. That same world then becomes hell. Those people say: So-and-so has become a resident of heaven. For a sannyasi, they would say that he has merged into the brahm element, or that he went to Nirvana. However, no one goes to Nirvana. You know how the rosary of Rudra is created. There is also the rosary of Runda; a rosary is created of the kingdom of Vishnu. Only you children now understand the significance of the rosary. You become threaded in the rosary, numberwise, according to the efforts you make. First of all, you need to have the faith that this is a Godly study. He is the *Supreme* Father and also the *Supreme* Teacher. You have to give the *knowledge* that you have

in your intellects to others. You have to make others equal to yourselves. Churn the ocean of knowledge. They have daily newspapers freshly printed each morning. That is something *common*. Here, one point is worth hundreds of thousands of rupees. Some understand it very well and some understand it less. A status in the new world is received according to how much you understand and explain to others now. A lot of solitude is required to churn the ocean of knowledge. They show that whenever Ramatirath used to write, he would tell his disciple to go two miles away, otherwise those *vibrations* would affect him. You are now becoming *perfect*. Everyone in the whole world has a *defective* intellect. You are becoming Lakshmi and Narayan through this study. This is such an elevated study. However, you cannot be made to sit down numberwise. By sitting at the back, you would fail and then choke and spoil the atmosphere. In fact, the *law* says that you should all be made to sit numberwise. However, only the jaggery and the bag that contains the jaggery know how sweet the jaggery is. This *knowledge* is very elevated. Your *classes* cannot be separated. In fact, you should sit in *class* in such a way that you don't touch the person sitting next to you even slightly. The sound can be heard far away through the *mike*. The Father says: Do not listen to or study anything of this world. Don't even keep their company. You should only keep the company of those who study well. Very clever and yogyukt daughters are needed where there can be good *service* done, where there are *museums* etc. The Father also explains: The *drama* is predestined. Sometimes, Baba thinks that something in the *drama* should *change*. However, there cannot be any *change*; this play is predestined. Seeing the stage of some children, Baba has the thought that something should *change*. Will they go to heaven as they are? Then there is the thought: A whole kingdom is needed in heaven; there will be maids, servants and also cremators. There cannot be any *change* in the *drama*. God speaks: This *drama* is predestined; even I cannot *change* it. There is no one higher than God. People say, "What can God not do?", but God, Himself, says: I cannot do anything. This play is predestined. Even when there are obstacles, He cannot do anything. They are fixed in the *drama*. What can I do? Many daughters call out: Save us from being stripped! What can the Father do? The Father would simply say: It is destined in the *drama*. This is a predestined *drama*. Don't think that it is God's will. If it were in God's hands, when a special, beloved child were to leave his body, Baba would then save that child. Many have doubts in this way. God is teaching you and so, if you are God's children, can God not then save even His children? They complain a lot in this way. They say: Sages and holy men are able to save the lives of some people and are able to revive some people so that they even get up and off the pyre. Then, they would say that God sent that person back, that Death had taken that one, but that God had mercy on him. The Father explains: Whatever is fixed in the *drama* that is what happens. The Father Himself cannot do anything. This is called the destiny of this *drama*. You know about the *drama*. They would say: Whatever had to happen happened, so why should we worry? He makes you free from worry. Everything that happens *second by second*, you should understand that to be the *drama*. That soul shed his body and went to play another *part*. How can you change an eternal *part*? Although your stage may be a little weak and you have some thoughts about something, nothing can be done about destiny. No matter what people say, we have the significance of the *drama* in our intellects. We have to play our *parts*. There is nothing to worry about. While your stage is still weak, there will be some of these waves. At this time, all of you are studying. All of you are bodily beings. I alone am bodiless. I am teaching all of you bodily beings. The Father explains to you children but, sometimes, even this Brahma sits and explains to you. The *part* of that Father and the *part* of Prajapita Brahma are *wonderful*. This father churns the ocean of knowledge and speaks to you. This is such *wonderful knowledge*! You have to use your intellect so much. Baba churns the ocean of knowledge in the morning. You also have to become like that, like your *teacher*. However, there is definitely a difference. A *teacher* would never give *students 100% marks*. He would always give a little less. He is the Highest on High and we are bodily beings. So, how can we become *100%* like Baba? These are very deep matters. Some hear them and imbibe them and they experience happiness, whereas others say: Baba always says the same things; there is just *repetition* all the time. When new children come, I have to take up the first *points*. Sometimes, even some new *points* emerge to be explained to others. Nevertheless, you children have

to help the Father. The *magazines* are printed. The same things would have been written in the previous cycle. If you were to print newspapers, you would have to pay a lot of attention that nothing is written which would upset people when they read it. You read the *magazines*. If there is something not concrete, it would be said: No one has yet become complete and perfect. It takes time to become 16 celestial degrees *accurately* full. A lot of *service* now has to be done; a lot of subjects have to be created. The Father has also explained: There are many types of *marks*. When someone becomes an instrument and makes arrangements for many others to receive knowledge, he receives the fruit of that. The old world is now to end. Here, there is temporary happiness. Everyone has some illness etc. Baba is experienced in everything. He also explains about the things of the world. Baba said: Write *wonderful* things in the newspapers and *magazines* so that people think that the Brahma Kumaris have written this absolutely accurately. This war also took place identically exactly 5000 years ago. How? Come and understand this. Your name will be glorified and people will become happy when they hear this. This is something great! However, it first has to sit in someone's intellect. Those who write this then have to explain to others too. Those who don't know how to explain would not even write about it. Achcha.

To the sweetest, beloved, long-lost and now-found children, love, remembrance and *good morning* from the Mother, the Father, BapDada. The spiritual Father says namaste to the spiritual children.

Essence for dharna:

1. Only listen to and study the things that the one Father tells you and teaches you. There is no need to study or listen to anything else. Be very, very careful of the company you keep. Sit in solitude early in the morning and churn the ocean of knowledge.
2. The destiny of the *drama* is fixed. Therefore, remain constantly carefree. Don't have any doubts about anything. No matter what people say, you should remain unshakeable on the *drama*.

Blessing: May you become an *authority* on using all your powers at the right time as a *master* almighty authority.

All the powers that you have received from the Almighty Authority Father will co-operate with you according to the situation, the time and in the form you want to use them. You can imbibe these powers and blessings from God in whichever form you want. One minute, experience them in the form of coolness, the next minute experience them in the form of burning something. Simply, become an *authority* on using them at the right time. All of these powers are servers of you *master* almighty authorities.

Slogan: When you have the courage to make effort on yourself and for the task of world transformation, success is guaranteed.
